Veyrix Technologies / Software Developer & Product Designer

APR 2022 – PRESENT

Developed mobile applications for clients

- Fundit : Cross platform VTU mobile application built using flutter
- MusicX: Native android music player application build with Java and XML
- Lifeline: A cross platform emergency response application built with flutter
- Status saver and video player : build in native android
- XM Yola Data Plug : Cross platform VTU mobile application built using flutter

Link : Will be provided based on request

Practicode Academy / UI/UX Designer Intern

OCT 2022 – FEB 2023

- Transformed complex user problems into intuitive, impactful design solutions, improving the core Target user group.
- Utilized advanced prototyping tools to validate concepts rapidly with users and stakeholders, securing buy-in for major design changes.
- Partnered with engineering to audit the final product, ensuring pixel-perfect implementation of the UI/UX and successfully resolving post-launch usability issues

Mile Star Limited / Graphic Designer

AUG 2021 – FEB 2024

- Led end-to-end creative production for three major marketing campaigns, designing all digital and print assets (social media ads, brochures, event signage) which collectively resulted in a
- 35% increase in lead generation
- Developed and strictly maintained brand style guides, templates, and asset libraries to ensure visual consistency across all corporate communications and product touchpoints, reducing
- off-brand design errors by 90% across the organization.

Education

Bachelor of Science in Computer Science,
2020 – 2025
Federal University of Kashare, Gombe State
